2003 Ford Expedition Engine Sputters: 7 Complaints

If your Ford Expedition has a sputter, it is most likely going to be caused by bad fuel system, ignition system, MAF sensor, or bad catalytic converter. Your Expedition 's engine is a giant pump. It pulls in air (where it is measured by the mass airflow sensor). The air is then guided into the cylinder where fuel is added and compressed.

Re: My 2003 ford expeition sputter when going up hill and... Probably a bad coil if its a 5.4..Scann to see what cylinder..even if you dont have a light the code may be in there..If its been a while since the plugs have been changed it may need that too..About 100000 is all you get on the plugs. Posted on Jul 27, 2012.

SOLVED: My 2003 ford expeition sputter when going up hill ...

03 ford expedition - problew at low rpm when you accelerate the vehicle sputters or if you give it gas under a load it has suddem power loss and rpms drop to idle - has died a couple times - at idle the rpms fluctuate i have already replaced fuel filter - no enginelight has come on Submitted:11 years ago.

Ford expedition: low rpm..accelerate..sputters..already ...

Try taking the fuel cap off while it is spluttering - if it suddenly clears up, it's the breather (put simply, if the breather is blocked, air can't get in to the tank to replace the fuel, so the fuel can't flow out). If that doesn't work, try replacing the fuel filter (s).
