To permanently adjust the volume during a phone call, just adjust the volume during a phone call - the setting will be remembered. There isn't a guaranteed answer to permanently adjusting the volume of the connect/disconnect tone - for some people (me included) this works: go into Engineering Mode on the RNS-E and select the screen that shows ...

Playing via any source but most obvious via iPod, there is a noticeable increase in volume from 0 through to 25. But 25 to 35 seems to have a minimal affect. iPod volume set to max, input volume set to max and GALA is OFF. When you go from 25 upwards there appears to be a momentary increase in volume but then it drops off.
