To determine what you need to bring on a day hike, think about how far you plan to hike, how remote the location is and what the weather forecast has in store. In general, the longer and/or more remote the hike is and the more inclement the weather, the more clothing, gear, food and water you're going to want.

Step One: Put the Phone in the Gear VR. This may seem like a no-brainer, but putting the phone in the headset can be a bit confusing the first time you do it. Unlike some other VR headsets, Gear VR actually requires a physical USB connection to the phone. And since it's designed to fit snugly, it doesn't work with a case on the phone.

### How to Set Up and Use Samsung Gear VR

In a rack and pinion gear, a slowly spinning gear wheel (the pinion) meshes with a flat ridged bar (the rack). If the rack is fixed in place, the gear wheel is forced to move along it (as in a railroad). If the gear is fixed, the pinion shifts instead.

Although your RPMs are higher in first gear, you aren't actually using more fuel than if you are applying more throttle in 6th gear to maintain the same speed. Let's say you are going 20 mph in first gear, high RPMs, but only using 30% throttle, you will be using less gas than if you were in 6th gear, at 1000 RPM, using 98% throttle.
